

Maintenance Optimisation Engineer – E&I

Job Type: Full-time (Mon-Fri), permanent
Location: Aberdeen

PBS (Semco UK) are looking for a Maintenance Optimisation Engineer (E&I) to join our team.

Details/duties:

- Review Maintenance look ahead over the forthcoming 1-5 years across all sites (NNS, CNS & WoS)
- Understand where we can add value in terms of a reduction in vendors
- Technical 'expert' within given discipline to:
 - Advise on training requirements to be undertaken (per vendor or service) and propose to SMC lead
 - Challenge on/offshore in current ways of working
 - Review routines and break down to individual tasks where a vendor is needed or not (e.g. steps 1-5 are PBS and 6-10 have to be a vendor)
- Carry forward into operational implementation with support from asset management
- Propose campaign team size and liaise with campaign focal point to implement

Experience & Requirements:

- Proven oil & gas industry experience in a similar position
- HNC/HND, Degree or equivalent
- Valid Offshore certification required
- SAP user
