

The Apprenticeship Experience Interview

A portrait of Kyle Davidson, a young man with short brown hair, smiling. He is wearing a black t-shirt. The background is a blurred industrial setting with metal railings.

KYLE DAVIDSON
ELECTRICAL TECHNICIAN
APPRENTICE YEAR 2

WHAT INSPIRED YOU TO UNDERTAKE AN APPRENTICESHIP?

I was inspired to undertake an apprenticeship because of the fact that I could learn from experienced engineers whilst also improving my hands on skills that I will use in the workplace.

WHAT SKILLS AND KNOWLEDGE HAVE YOU GAINED THROUGH THE APPRENTICESHIP SO FAR?

I have learned about the main electrical principles, how to work as a team and how to communicate information effectively. I have also learned about maintenance and testing procedures on electrical equipment.

WHAT DOES A TYPICAL DAY LOOK LIKE FOR YOU?

A typical day as an apprentice usually involves a blend of hands-on practical work and theoretical learning.

WHAT HAS BEEN THE MOST REWARDING ASPECT OF YOUR APPRENTICESHIP EXPERIENCE?

The most rewarding aspect of my apprenticeship experience has been getting good results on tests and assessments that I spent a lot of time and effort studying for.

WHAT ADVICE WOULD YOU GIVE SOMEONE CONSIDERING AN APPRENTICESHIP IN THE ENERGY SECTOR?

I would say focus on safety, and always be ready to work hard and take on new challenges.
