

SAFE MECHANICAL LIFTING

LIFE-SAVING RULE

Plan lifting operations and control the area

My commitment to **Safety**:

- ☒ I confirm that the equipment & load have been inspected & are fit for purpose
- ☒ I only operate equipment that I am qualified to use
- ☒ I establish & obey barriers & exclusion zones
- ☒ I never walk under a suspended load
- ☒ I never approach a load above waist height or guide a load by hand where there is a risk of injury

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.

DRIVING

LIFE-SAVING RULE

Follow safe driving rules

My commitment to **Safety**:

- ☒ I always wear a seatbelt
- ☒ I do not exceed the speed limit & reduce my speed for road conditions
- ☒ I do not use phones or operate devices while driving
- ☒ I am fit, rested & fully alert while driving
- ☒ I ensure awareness of pedestrian walkways & pedestrian segregation
- ☒ I follow journey management requirements

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.

CONFINED SPACE

LIFE-SAVING RULE

Obtain authorisation before entering a confined space

My commitment to **Safety**:

- ☒ I confirm energy sources are isolated
- ☒ I confirm the atmosphere has been tested & is monitored
- ☒ I check & use my breathing apparatus when required
- ☒ I confirm there is an attendant standing by
- ☒ I confirm a rescue plan is in place
- ☒ I obtain authorisation to enter

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.

WORK AUTHORISATION

LIFE-SAVING RULE

Work with a valid permit when required

My commitment to **Safety**:

- ☒ I have confirmed if a permit is required
- ☒ I am authorised to perform the work
- ☒ I understand the permit
- ☒ I have confirmed that hazards are controlled & it is safe to start
- ☒ I stop & reassess if conditions change
- ☒ I work exclusively within my competence & for which I have authorisation

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.

HOT WORK

LIFE-SAVING RULE

Control flammable and ignition sources

My commitment to **Safety**:

- ☒ I identify & control ignition sources
- ☒ Before starting any hot work:
 - I confirm flammable material has been removed or isolated
 - I obtain authorisation
- ☒ Before starting hot work in a hazardous area I confirm:
 - a gas test has been completed
 - gas will be monitored continually
- ☒ I know what to do in the event of a fire & who to inform

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.

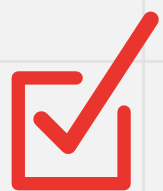

LINE OF FIRE

LIFE-SAVING RULE

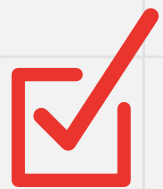

Keep yourself and others out of the line of fire

My commitment to **Safety**:

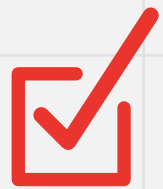

I position myself to avoid:

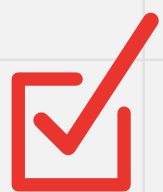

- moving objects
- vehicles
- pressure releases
- dropped objects

I establish & obey barriers & exclusion zones

I take action to secure loose objects & report potential dropped objects

I never stand between a potentially moving part & a fixed object

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.

BYPASSING SAFETY CONTROLS

LIFE-SAVING RULE

Obtain authorisation before overriding or disabling safety controls

My commitment to **Safety**:

- ☒ I understand & use safety critical equipment & procedures which apply to my task
- ☒ I ensure emergency resources are planned & available
- ☒ I obtain authorisation before:
 - disabling or overriding safety equipment
 - deviating from procedures
 - crossing a barrier

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.

ENERGY ISOLATION

LIFE-SAVING RULE

Verify isolations and zero energy before work begins

My commitment to **Safety**:

- ☒ I have identified all energy sources
- ☒ I confirm all hazardous energy sources have been isolated, locked & tagged
- ☒ I have checked there is zero energy and tested for residual or stored energy
- ☒ I enquire about the nature of products likely to be present
- ☒ At the opening or closing of circuits I wear appropriate PPE and Arcflash protection

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.

WORKING AT HEIGHT

LIFE-SAVING RULE

Protect yourself against a fall when working at height

My commitment to **Safety**:

- ☒ I inspect my fall protection equipment before use
- ☒ I secure tools and work materials to prevent dropped objects
- ☒ I tie-off 100% to approved anchor points while outside a protected area
- ☒ I prevent all risks of falls from height
- ☒ I always wear my safety hat and chin strap

These rules are standardised across the industry, empowering us all to act with safety as our top priority. By embracing each principle, we contribute to a safer workplace for ourselves and our colleagues every day.
