

HARRY GRIEVE

Electrical | Year 2

"The most rewarding part has been seeing the results of my hard work pay off."

**The Apprenticeship
Experience Interview**

WHAT INSPIRED YOU TO UNDERTAKE AN APPRENTICESHIP?

I chose an apprenticeship because I wanted to learn hands-on and gain real skills while working.

WHAT SKILLS AND KNOWLEDGE HAVE YOU GAINED THROUGH THE APPRENTICESHIP SO FAR?

So far, I have learned that safety is paramount. I have developed practical skills in my trade and a stronger understanding of how to work responsibly and carefully on the job.

WHAT DOES A TYPICAL DAY LOOK LIKE FOR YOU?

A typical day is a mix of classroom learning and hands-on practical work. I spend part of the day learning theory and techniques, and then I get to apply that knowledge directly in real work situations, which helps me understand it better.

WHAT HAS BEEN THE MOST REWARDING ASPECT OF YOUR APPRENTICESHIP EXPERIENCE?

The most rewarding part has been seeing the results of my hard work pay off. It feels good to look back on a project and see how much I've learned and accomplished.

WHAT ADVICE WOULD YOU GIVE SOMEONE CONSIDERING AN APPRENTICESHIP IN THE ENERGY SECTOR?

Take the opportunity to learn from everyone you meet. Enjoy getting to know new people, because you'll build connections and gain advice from experienced professionals that can really help you in your career.
